

GAVE HIM A COAT

Of Soft, Clinging Tar and Chick-
en's Feathers

AND THEN TURNED HIM LOOSE

How Some Indignant Citizens Near Col-
oma Treated the Founder of the
Sect of Christian Martyrs.

COLOMA, Mich., June 7.—Some years ago a farmer named Carter, living near this place, started a religious sect, which he named "The Church of Martyrdom," and to show his belief in it, subjected his wife to occasional beatings and bullied everyone else within reach who changed to be weaker than himself. His cowardly conduct and the unsavory name of himself and misguided followers kept increasing the size of the Colonies until it reached a climax. As Carter with two or three companions was driving home a delegation of citizens met him, invited him to alight and then proceeded to paint him a delightful wax with good soft, clinging tar, and to call to him and his wings he expects some day to wear the painters stuck a bushel basketful of chicken feathers in the tar and let the victim go.

The tarring and feathering of Carter has caused an adult sensation here, and the persons who applied the decorations are looked upon as the biggest men in town.

The young woman and Decade were both arrested on a charge of lewdness. A middle-aged neighbor told the ladies and that the girl he wed was not virtuous. He related the story to his child wife. That cough, slight fever and weakness, shortness of breath, palpitation of heart, may mean sure and quick consumption.

If you are nervous, restless, irritable, sleepless or wake after horrid dreams, tired mornings, with a dull headache, bad taste in the mouth, sometimes discharged, and go about your employment without life, energy or ambition, desire to be alone, gloomy forebodings, a disposition to worry and fret about trouble ahead that you have no cause for, feeling afraid or uncertain, sometimes low spirits, you are suffering from nervous debility and exhaustion of nerve power, which may end in utter prostration, insanity and death.

If you have a great sense of weakness and weariness, with tired limbs, numbness, trembling, prickly sensations, cold feet and legs, you are advancing to that most serious disease—Paralysis.

If your head aches, feel numb and tired, with strange sensations, loss of memory, and you think with difficulty or you are sleepless at night, with drowsiness and dullness during the day, the nerve and brain fatigue may soon run into insanity or death.

If you have any of these feelings do not neglect them, or they will end in paralysis, insanity, prostration or death.
